

YOUR B2B CUSTOMERS EXPECT
A GREAT ONLINE EXPERIENCE

Give it to them with Magento

Your B2B buyers demand an easy, mobile-friendly, shopping experience. And they want to self-serve their B2B orders 24x7, with real-time information from your SAP system. →

Give your customers what they want with our modular, cloud-based SAP eCommerce solution.

It's cloud-based, fast to implement and features native integration with Magento.

**WE INTEGRATE MAGENTO TO SAP
(NOT THE OTHER WAY AROUND)**

“Are you integrating Magento to SAP or SAP to Magento?” The answer to that question could spell the difference between success and failure of your SAP Integrated B2B eCommerce project. At the very least, it will define the level of effort, complexity and cost (and cost overrun) of your initiative.

The table on the next page shows the difference between what all other vendors call “integration” and our solution. We don't replicate, duplicate or synchronize transactional data between SAP® and Magento. Instead, we keep your core business data where it belongs — in SAP®.

We integrate Magento to SAP (not the other way around)

	SAP → Magento		Magento → SAP		
	Magento	SAP	Magento	SAP	Corevist

INDUSTRIES WE SERVE

OUR CLIENTS MANUFACTURE, SELL AND Distribute a wide range of products – from chemicals, building materials and heavy equipment to office supplies, bicycles and cosmetics.

Even though our clients are in different industries, and serve different markets all over the world, one thing is the same – they've all improved operational efficiency and reduced overhead with Corevist.

Visit www.corevist.com to schedule a demo today.
